Rated 4 out of 5 by Anonymous from Good for kids My son loves this game! It helps him study for his tests and play with his friends. His favorite part is that the creators have set everything up so that parents can control what their children see online.

By far the easiest way is by subscribing to all of these YouTube creators . All of them are very active so you will be sure to receive whatever they offer in no time. The most important part is to always leave a comment if there is one available. This will help the YouTuber know that it was you who subscribed and make them send more robux fast. Using these generators is extremely simple and they can be done whenever you need to, at school, work or wherever you may be! Just make sure that you do it while staying safe as one should never give out their password or other personal information on the internet. With that being said, have fun and happy gaming!

On October 10, 2010, Roblox replaced their old homepage with a new one. It was also released as part of an update and it was later applied on January 26, 2012. The old design was later removed from the website. A redesign of the website would be released on February 23, 2014. With this new redesign, Roblox added a news feed to the site and went back to the old design before October 2010.

I like roblox but it is still not better than minecraft in my opinion because minecraft have so much stuff, people can do a lot of stuff. I think Roblox needs to get a lot of money so they can improve more stuff than they already got. I love roblox but I still think that it could be way better, so here is some of my ideas 1. It should have better graphics 2. It should have better game servers 3. There should be more new games, but there is a thing what I don't like about roblox is that the games are kind of the same every single time, and you end up playing them too many times 4. The games should either really get harder or really easier

Roblox was revealed as the top website for malware infections in the U.S.[74] And as of 2015, it was accused of having more malware downloads than any other website in the world.[75]
