Roblox is old and not as great as Minecraft anymore but still fun. Roblox has many glitches on the new models which makes it unplayable. Some of the old content when you log in there is not working.

ROBLOX also has a plugin called "Google Play", which allows any application made with Google Play's interface to be distributed on ROBLOX. The first release of this plugin was in April 2015, but there have been many updates since then.

The territory restriction on new accounts for "TERA" was lifted in June 2012. At that time, players were also given a free transfer to a North American account. In February 2015, En Masse Entertainment announced plans to merge servers for "TERA" and also announced additional details about Season 2 of "TERA: Rising". The merger began on March 11 with servers down for two hours beginning at 5 am Pacific Time (8:00 UTC). This was followed by two more short downtimes on March 17 and March 26 before all character transfers were completed. The merger of servers resulted in the creation of a single player vs. player server and a single role-playing server. The role-playing server was created to stop the underpopulated game world from splitting into two more servers.[62]
