They're clearly taking steps in this direction by creating special perks, abilities, etcetera for those who have purchased robux from them. They're also creating clothing items which are being sold for outrageous prices with the sole purpose of being able to differentiate those who pay from those who don't in their game. This is wrong. It's unethical and it should not be tolerated.

ROBLOX provides a feature that allows the user to build on their own server using ROBLOX Studio and upload it to their own server. This feature enables them to remove things that they don't like or people who break the rules and get banned from their creations. They can also control who enters their games. This also allows them to advertise their channels by making a game with a name similar to other popular games. However, this feature has many rules that the users must follow to keep their servers running smoothly. For example, they cannot advertise any kind of website or give out personal information about themselves.

In 2018, ROBLOX added a new feature called the Robux Exchange. The exchange allows players to trade their hard-earned coins for ROBUX and for certain items, which can be used to build games. To use the exchange, players must have at least 50 ROBUX in their account.

On December 10th 2016, ROBLOX released another update where players could join groups and wear clothes representing their group on their backpacks. However, yet again it was abused by many users who used the feature for monetary gain. As a result of this, ROBLOX removed the functionality and shut down the "ROBLOX Backpacks" section on their website. On May 19th 2017, ROBLOX updated its backpacks feature which allowed players to join groups.[77]

I love Roblox, but there are a few issues that I think need to be fixed. I have noticed that there is a lot of adult themes, and people swear a lot (which is not acceptable, it should only be in forums, not in game). It also needs more updates. In my opinion you should only take down the website if you combat online harassment or if someone steals someone else's idea. You can't create an account with your email address or password because the website doesn't know who you are. It only knows your username which is so unfair because someone could send harassing messages to other players without them knowing the real person. You should add more games and less glitches, with more updates. I really hope you take my suggestions into consideration, it would be great if you fixed all the big issues in Roblox.
