Too many ads by Rachael Bajo on 2018/04/12 16:31 This game is very fun and I will have to admit that the game play is very well executed, but the amount of ads is way too much and you guys are not helping the problem at all. The ads do not get removed from your screen and you have to close them out just to use your items or do something. They also sometimes pop up when I don't want them to like before I open a shop. It is very annoying because you can't even go back without closing it out which ruins my plan every time. Another thing is that you have to wait for so long. You have to wait hours to even complete something. I know this is supposed to be some kind of strategy game but all it really does is frustrate the players because they can't even move forward because they had a bad streak of luck.",

"This is one of my favorite games because of the different levels and how easily it takes all my free time. It would be cool if there were different games you could play with friends online and offline. This game has so much potential, but in its current state I can only say this about the game...  
"It had promise."",
