On February 20, 2017 an update regarding the Cardboard Mode gameplay was posted on Twitter by Moon Active (the developers of Coin Master). The post stated that the Cardboard Mode had been updated to fix some bugs, specifically when using a device that is not flat and can have a different screen size. This post can be viewed here.",

Fun but.. by The redhead cat on 2015/11/24 00:04 I love this game but the only thing is that ads keep popping up when you're just trying to play. I have a iPad so it's not a small screen and I know it's not my WiFi because all other games don't have that problem. It keeps happening when I'm in the middle of playing, which makes me lose and I just hate that part about it.",

The game averages over 1,250 reviews with a rating between 4.5 stars to 4.8 stars across all platforms according to Google Play's and Apple's App Stores. The game's graphics are generally of an attractive and colorful nature. The characters featured in the game, while themed around coins, have been described as similar to "a kid's metal-head toys", with unusual characteristics that match the gameplay. The packaging of individual coin cards have also been described as "retro" in design.",

Great app, but... by Anubis_In_Da_Club on 2013/11/27 15:02 I love this game, but I hated the fact that you had to wait a while until you could start another game. It was very frustrating. Overall, it is amazing! It's my favorite game because it's not like every other puzzle word app there is out there.",

The fourth group of "card packs" was released on November 4, 2016. The card packs are no longer available for purchase and will become exclusive to players who have paid for a premium pack, however the new cards will be shared between both versions of "Coins & Curses".",
