Fun, but.. by Aqueela on 2014/12/14 12:46 First of all, I love the concept of this game and, as an avid puzzle solver, I enjoyed completing the puzzles needed for each level. The game has some great features such as timed puzzles, word hints and more. However, I do have a few criticisms. First of all, the ads are sooo annoying! I've downloaded over 10 games in the past 2 weeks and every one of them had to be deleted because of the ads. Secondly, I was kind of annoyed with having 2 sets of tiles in a level then receiving new tiles from the previous board when you complete it. Finally, the timed levels were not that challenging and could have been better developed (so that you could make mistakes without losing time)."

Collectors can customize their individual level progression through quests, tournaments, and collections to make their way from Novice Player all the way up to Expert Collector status. Players have access to four different quest types: Fish, Card, Star, and Coin. Players have the opportunity to win rewards such as coins, cards and boosters, which can be collected through collecting cards or completing quests. The greater the number of stars earned in a quest the better the card will be in game play."

The game includes a variety of different "power ups". The user reviews for each power up show the overall audience's rating of the power up at that point. Some power ups include the ability to turn on an area light, remove clouds from the screen, double all coin production, and create special blockades in which coins aimed directly at one end of a light stand will be destroyed before they reach it. The more powerful power ups also include "turbo bombs" which can be fired from the player's cannon."
