In 2015, the game gained attention when a player won a card pack as part of a charity raffle. The player was awarded the card "MYSTIC MINE" by developer United Pixelworkers after taking part in an event via their Twitter account. Mike Miller, the developer of the mobile game, confirmed on his Twitter page that it is an actual card for sale in their store and since then has made appearances in real-world merchandise and as part of cards used in tournaments.",

The game's website also has a hit counter that updates every five minutes. The game also tracks player activity by awarding quest coins based on how many games have been played and how quickly they are completed in the app. The rarer a card is used in a match the more coins earned.",

Good game by Kiyaa on 2018/11/14 17:12 This game is fun and addictive and perfect for passing time but there are some glitches with the game. First off, when an item goes out of stock, you can spend hours or days trying to get back into the item. Secondly, the cheating needs to be fixed. You can see when someone has low health and attack them. They have the option to block you, but they can still win. There is nothing you can do about it. Third, the spells and potions aren't really useful. The spell usually only goes through to your opponent one time so that's pointless. The potions are also very expensive and don't really do much of anything for you. Lastly, I would like it if there were some way to get more coins because when there are special items that cost 1000 or more coins I have to spend an entire day saving up for them. It really gets old once you get more coins than everyone else.",
