Good but annoying by Mudda on 2015/04/04 20:05 I really like this game except for the fact that there are ads every time you do anything. You can also only have one game completed at a time otherwise if you put it down to go do something else and come back you have to start all over with your puzzles again. Great concept but needs some work because I had to delete this app because of the ads, which is very unfortunate because this is one of the only good word games out there."

"Coin Master: Poke Map" is a spin-off title created by United Pixelworkers (UPI) released on March 10, 2018 on iOS devices only. The game allows the user to use live location tracking as they play on their iPhone. The newspaper titled "Coins & Curses Adventure" which is about "Coins & Curses Adventures" can be accessed by tapping on the mailbox icon in the corner of the main menu cover page."

The game includes a variety of different "power ups". The user reviews for each power up show the overall audience's rating of the power up at that point. Some power ups include the ability to turn on an area light, remove clouds from the screen, double all coin production, and create special blockades in which coins aimed directly at one end of a light stand will be destroyed before they reach it. The more powerful power ups also include "turbo bombs" which can be fired from the player's cannon."

The sequel featured updated versions of popular games from the 70's-like "Space Invaders". Coin Master: Space Invaders was released in Japan initially as part of Moon Active's "Coin Masters" series. However, this version of the game was never released outside Japan. This version contains microtransactions which can be removed by paying \$4.99 for an ad-free version. The user review for Coin Master: Space Invaders is composed of 4.5 out of 5 stars (out of 1 vote) from 1 user, with a user rating of 3 out of 5 stars (out of 1 vote)."

The game was launched on the Google play store in August 2012. In December 2015 Coin Master was removed from the play store for unknown reasons but it continues to remain available on its own website. Moon Active announced in October 2016 that "Coin Master" was shutting down. However, in 2018, Moon Active released version 1.1 for iOS devices which contained support for 3D touch devices and some other bug fixes. They also announced another new game called Coin Master "Dig Deep" which is similar to the original Coin Master but has added features such as a virtual currency system and features much more content than the original game."
