I'm love it by Bella fox on 2018/05/17 05:44 This is so fun for me I play it every day and I love it thank you for making such a wonderful game just one question though. They say we need 2,000 coins to upgrade but we only get 10 coins and if we spin 20 times thats the max 200 coins so how can we get more than that? Even though they have a lot of things have no coin is there any way you can make everything cost less coins? But besides that I think this game is great and fun to play with friends. I love it and I recommend it to anyone who likes playing fun games.",

Great game by Big_Doofy on 2014/12/14 21:02 This is the best game ever. It's very addictive and fun to play. I usually play this while I'm bored and waiting for commercials to end during my tv show or when I'm bored. But, sometimes if there is an add, the add doesn't go away until you watch it even if you swipe it away. But other than that this is a great app!",

On January 25, 2018 it was announced that United Pixelworkers (UPI) would be developing a new version of Coin Master for iOS devices called Coin Master "Dig Deep". The game is free to download from Apple's App Store and has been released in Beta format as of February 2018. UPI will also be releasing a new version for Android which will be based on the original Coin Master game but this time with 3D artwork similar to that of the mobile version.",

"This is one of my favorite games because of the different levels and how easily it takes all my free time. It would be cool if there were different games you could play with friends online and offline. Also, I would be better off if you could actually get coins without spending your real money on them through in-app purchases or by downloading another game that requires real money."",

The gold edition of Coins & Curses Adventure will include all four character packs as well as a new card pack containing 12 cards for use in the game. In July 2017 United Pixelworkers announced on their Facebook page that a PC version of Coins & Curses 2 was being developed by ZenFantasia. It is currently in development, but no release date has been announced.",
