The game was also featured on the front page of the App Store in multiple regions including Canada, United States, United Kingdom and Australia. A spin-off title for iOS devices called "Coin Master: Dig Deep" has been released by United Pixelworkers and is available to play online on any compatible browser or directly through an app designed for iPad, iPhone and iPod Touch. This title was released as a limited time premium version with more in-app purchases which included more levels and content. The PC version of this title has also been released on Steam and is available to download directly from within the Steam application or from its store page which can be found here. This game is similar to "Coins & Curses 2" except that it includes more in-game content.",

The art-style is that of a retro style 8-bit game and the stages in the PC version are represented by a 2D top-down perspective where the player controls their character using a keyboard, mouse or touch pad. The mobile versions are more casual and use intuitive finger gestures instead of keys to move through gameplay. The mobile versions have 3D artwork rather than 2D sprites while also allowing the player to interact with their environment and other characters as they play. Each coin character has its own unique abilities while all coins have different stats in speed, attack strength, maximum health points and jump ability. The player can also collect coins and turn them into gems and the player can use these to buy new items.",

Great App by Jack'sMommy on 2013/10/27 20:09 I love playing this game. The only problem is that sometimes the time runs out before I get a chance to choose all the words I can find. Maybe you could add a more relaxed mode where you don't have to worry about time, just play until you've found all the words in the puzzle. Other than that, it's a great game!",

Great game by Big_Doofy on 2014/12/14 21:02 This is the best game ever. It's very addictive and fun to play. I usually play this while I'm bored and waiting for commercials to end during my tv show or when I'm bored. But, sometimes if there is an add, the add doesn't go away until you watch it even if you swipe it away. But other than that this is a great app!",
