Overall I found Coin master to be a fairly quick game to play, although it is not as addictive as some of the other games on this site. I would recommend giving it a try for 50 minutes or so and see if you enjoy it before you decide whether to purchase it at all. The game itself is free but there are unlockables such as achievements and costumes which can't be unlocked unless you decide to spend your in-game coins (which costs about \$2 per million coins). You can also still play the free version of the game without spending your coins, but you won't be able to unlock all the achievements and costumes as you progress through the game."

Coin Master is a game app for mobile devices. The game has spun off into a collectible card trading card game which is created by the makers of the original Coin Master Game. The app is free to download and it's available on Android, iOS and Windows."

"Coin Master: Poke Map" is a spin-off title created by United Pixelworkers (UPI) released on March 10, 2018 on iOS devices only. The game allows the user to use live location tracking as they play on their iPhone. The newspaper titled "Coins & Curses Adventure" which is about "Coins & Curses Adventures" can be accessed by tapping on the mailbox icon in the corner of the main menu cover page."

In 2013, Moon Active released Coin Master for Android which could be played either offline or online. This version of the game contained in-game advertisements and micro transactions which could be removed by paying \$3.99 for an ad-free version. The user review for Coin Master Android is composed of 3 out of 5 stars, with a user rating of 4 out of 5 stars (out of 1 vote)."

Awesome game, but.. by Rachel ☐ on 2014/08/03 17:48 This is a great game!! I've been playing it for months now and I still have no words left! You can also do timed puzzles which is always super fun. However, I hate that you have to wait a certain amount of time before you can do another level. That's stupid and I really don't understand why anyone would want to do that!";
