Coin master currently has a 4.5 star rating on Google play with over 8,000 reviews, and a 3.5 star rating on the iOS app store with almost 2,000 ratings. This is probably due to the fact that while this game is not the most addictive or fun around, it definitely is a good game to pass time with if you have nothing else to do. The graphics are nice and colorful and the concept of going from island to island collecting treasure along with your pet fish is unique compared to other games out there. I also enjoyed how there were achievements and collectables you could purchase at certain levels which allowed you to work toward achieving something special in the game as well as progress through it more easily. Besides that, I feel like this game is definitely worth a download and worth 5 dollars to unlock all of the cool stuff, but as it is right now I wouldn't recommend it.

Good Summary Coin master is fun to play, but not nearly as addictive as other games out there. Worth it if you love price charts and achievements, otherwise try other games first."

The developers of Coin Master have said that the game is not free to play but does include advertisements. A user review on iTunes states that "The main problem I have with Coin Master is the lack of gameplay variety and difficulty spikes" and remarks that "once you've played through a level, chances are it won't take you long to beat the next one". The developer of Coin Master has countered this criticism by stating that they are "working to add difficulty spikes and more levels in order to make them more challenging and replayable".

"I love this game because anyone can play it, anytime, anywhere. But I just don't quite understand how they are trying to make money. You have these extra lives you win from watching videos or playing other games, but they are not enough unless you spend your actual lives on them through in-app purchases or by downloading another game that requires real money. I would give this game five stars except for the fact that I feel like there's a lot of potential wasted on how they are trying to make money. Hopefully the developers will change their ways."

Raiding by jdjejbndndjkd on 2018/03/28 18:34 Ok so I love the game but I was playing in the classroom and I got attacked by someone else while I was playing it. And I lost all of my troops along with half of my castle. I didn't make it through the game to see if my troops came back but it was just devastating. If you can make the game a little more fair like your secret messages and if there is a new army system that is way more fair. And if you do not want people to attack while you are playing. Then maybe put an option where we can play one by one in our own kingdoms or have a leader board or something like that? I really love the game but I think some stuff needs to be changed. Thanks if you can take into consideration."

There are currently two collectors editions of Coins & Curses Adventure available for purchase. The "Limited Collector's Edition" includes the base game and four character packs. This includes one pack of characters exclusive to the game, three packs that can be shared between both versions of "Coins & Curses" (PC and mobile) and a pack that is exclusive to "Coins & Curses Adventures". The character packs are:"
