"This is one of my favorite games because of the different levels and how easily it takes all my free time. It would be cool if there were different games you could play with friends online and offline. This game has so much potential, but in its current state I can only say this about the game...

"It had promise."",

The developers of Coin Master have received several honors for their game. In 2006 they were awarded a "Design Star" from Microsoft as one of "10 innovative games to watch out for". In 2008 the developer was nominated for a Webby Award in the "Best Kids' Website" category.",

In 2013, Moon Active released Coin Master for Android which could be played either offline or online. This version of the game contained in-game advertisements and micro transactions which could be removed by paying \$3.99 for an ad-free version. The user review for Coin Master Android is composed of 3 out of 5 stars, with a user rating of 4 out of 5 stars (out of 1 vote).",

A version of the game for iOS devices is available to play on the web directly in any compatible browser or through an app that works on PC/Mac or tablet devices. It is also possible to download the mobile version of the game onto iOS or Android devices and play offline. This version includes all of the features that were present in "Coins & Curses 2" which include premium packs, card packs, challenges, AND Cardboard Mode. The PC version has been downloaded over 1 million times since its initial release in September 2017 and has been downloaded a total of 1.3 million times if both PC and mobile versions are counted together.",

Loved this game! by s\_only\_me on 2018/03/31 15:13 This app was really fun and addictive. I've downloaded many apps but this was my favorite!! It's like a mini version of scrabble or tetris that is easy to finish, so I wasn't always too frustrated when I couldn't get a word right or it didn't fit in the puzzle correctly. I really liked the fact that I could earn coins and buy different game modes and backgrounds. I would definitely recommend this app ❤️",
