Roblox is governed by a global moderation team, consisting of volunteers and employees. Moderators monitor Roblox for inappropriate content like violence, nudity, profanity and copyright infringement. Moderators have the ability to mute, ban, or delete users from a game. Players can also report other players for inappropriate behaviour. In addition, moderators are expected to help players in need with moderation and issue resolution.

During the time when Roblox was first being developed (2004–2007), there were a small number of games created that were designed to troll or harass other user accounts on the game platform. Trolls could take advantage of the limited moderation tools and exploit loopholes in the "Terms of Service" and "Community Guidelines".

On October 10, 2018, Roblox announced that they will be selling 49% of their ownership stake to Tencent Holdings for \$100 million. The transaction is subject to approval by the Roblox board of directors and Tencent before it goes into effect. The acquisition is part of a strategy by RoLabX to become a global gaming powerhouse with operations in China. The deal also confirmed that Tencent will continue to operate as the chief customer and user experience partner for ROBLOX.

ROBLOX was launched on March 9, 2007. ROBLOX later went under the name "Genesis". ROBLOX officially changed its name to ROBLOX on November 3, 2007. On March 15, 2009, ROBLOX's new style was made official. Then on March 22, 2009, a new logo was released for the first time since 2007. On August 7th, 2010 it went back to its original look. On February 23rd 2011 ROBLOX announced the launch of Minecraft Clone called Blockland. Then on May 19, 2011 ROBLOX announced it had launched a new engine. On December 18, 2011 ROBLOX announces a new game called Roblox City Builder.

Another disadvantage is that whenever a user updates their account, they are required to update the free robux script as well. Since it is hard for you to keep track of your own updates, you will need someone else to help you do this especially if you are constantly updating your posts several times a day.
