In January 2015, the official Roblox Studio 2 was released on Steam. It allowed for cross-platform development with Windows 10. However, any existing games made with the previous version (R-Engine) will not work with this new version since it uses a completely different engine.

In January 2013, the Chinese government started an investigation into various MMORPGs to determine whether the genre was suitable for children.[58] The same year, Sigaty discussed the possibility of a Battle.net-like service for World of Warcraft.[59]
