On September 1, 2017, the game "Build a House, Build a Life" was unveiled. It was released on November 6, 2017. "Build a House, Build a Life" allows players to build their own dream house in the game with their own furniture and items.

Roblox has been criticized by parents for issues such as allowing players to have relationships with other users through the game, and allowing players to (unsuspecting) "friend" hackers. Other criticisms include consuming large amounts of bandwidth, and not being child-friendly. The site has been removed from school computers in order to protect children.

I like roblox but it is still not better than minecraft in my opinion because minecraft have so much stuff, people can do a lot of stuff. I think Roblox needs to get a lot of money so they can improve more stuff than they already got. I love roblox but I still think that it could be way better, so here is some of my ideas 1. It should have better graphics 2. It should have better game servers 3. There should be more new games, but there is a thing what I don't like about roblox is that the games are kind of the same every single time, and you end up playing them too many times 4. The games should either really get harder or really easier

The more money you have, the easier it is for you to get free robux for your account. If your account is filled with robux, then you do not have to worry about spending too much time searching for different websites that provide this kind of service. Since there are so many ways available, anyone interested in getting free robux will never have a problem doing so. As long as you stay active with your account and do things that other users are interested in, this goal should be easy to reach within a few days according to many reviewers.

Some parents of children who play the game have said that it is due to inappropriate content and language that their children are spending so much time on the site. Some of these parents reported being harassed by other players on the site when they themselves criticized Roblox. One parent said that far from being a "quality of life" game for his child, it was being used as a distraction to escape from reality. The following comments were made:
