Social media website Reddit users are known for posting TikTok videos on the forum. The real-time social video platform has gained popularity. It is mostly used as a replacement to YouTube. Users post videos from their phones or computers to the platform, where they can be viewed by other users and added to their own collections. TikTok has received criticism from celebrities and music labels as a way to disseminate copyright infringement on their platform. "Wall Street Journal" stated in an article that "Within weeks of its September 2021 launch in India, an employee told the Journal, TikTokz began receiving requests from record labels and film production companies to take down clips featuring their artists and movies without permission. In March 2021, the French government requested that TikTok be permanently banned from Apple's App store and Google Play because of its pornographic videos. The Minister of the Interior Christophe Castaner stated that: "the goal is to force them to make changes, notably by using age verification tools." TikTok can be observed as a useful case for understanding the development of "internet culture". It could be said that while other popular social platforms like Twitter and Instagram are popular with users because of their features, it is precisely TikTok's rejection of such features that makes it so popular among young people. This is because they attribute the lack of these features to its ability to focus on the video clips themselves, and thus on the people they can "connect" with. For this reason, TikTok's success can also be attributed to it being an app driven by pure fun and entertainment."
