You are paying for a product that doesn't exist. You wouldn't pay for an airline ticket without knowing when the flight has left the gate or whether it would ever take off. It is unethical to purchase Robux (robux) without knowing how they are stored or used within ROBLOX's software. You shouldn't be forced to pay for something in which you have no ability to benefit from what you're paying for.

Media usage and privacy concerns from various sources (see articles) have prompted user action against the company. ROBLOX is a site that allows its users to create their own 3D worlds by building them with the Roblox Studio software. Users can also import their own model and use it in their game. Users can also upload their game and give it ratings on ROBLOX's website. ROBLOX has also allowed users to create art of other games from other developers on YouTube through ROBLOX's brand of accounts created for this purpose. However, they have been criticized for not allowing users to upload custom art they have created into their games, which is done by making custom "Avatar" models for users which can then be used in-game.

Roblox allows its players to participate in in-game events which are typically organized by the administrators of the game. These events may include special tasks for Robloxians or extra items that can be obtained during the events. Players who take part in these events may gain access to different amounts of ROBUX depending on their performance.

Roblox Help on Steam (Steam Community) - This is a helpful site where you can find help on Roblox games. There are patches and fixes for the Roblox games that have been developed by the community. If you're having trouble with a game, this is where you should start. You can also find links to all of the Roblox games that have been submitted to Steam and nothing has been updated or released in a while. The page is organized in alphabetical order, so there's a good chance it will be easy to find what you need.

On September 3, 2014 (8:00 PM), ROBLOX released a new website design and many changes to the graphic. The new design is much cleaner and easier to navigate. It also includes more screenshots of games, more user-friendly forums, better administration tools to keep track of groups and permissions for Moderators/Administrators, improved support for security questions/passwords, better notices on who has access to what information on the site, and improved support for email notifications.
