Roblox Forums on Imageloupe - These forums are great for finding technical help on a wide range of topics such as how to get better at building or getting cheap tix with cheats or exploits. Roblox Wiki - This wiki is the main Roblox official documentation for the game. It's a great place to start to learn the basics of Roblox.

On January 13th, 2019, ROBLOX implemented broader anti-fraud features called "Secure Trading." The system is designed to prevent fraud such as fake accounts/bots, selling stolen virtual currency and more. It is also designed to allow users to trade in a safer environment. [28]

Media usage and privacy concerns from various sources (see articles) have prompted user action against the company. ROBLOX is a site that allows its users to create their own 3D worlds by building them with the Roblox Studio software. Users can also import their own model and use it in their game. Users can also upload their game and give it ratings on ROBLOX's website. ROBLOX has also allowed users to create art of other games from other developers on YouTube through ROBLOX's brand of accounts created for this purpose. However, they have been criticized for not allowing users to upload custom art they have created into their games, which is done by making custom "Avatar" models for users which can then be used in-game.

Afterwards, ROBLOX began taking action on these cases and will be using an automated system to monitor all transactions for suspicious activity. [43] ROBLOX has also been known to restrict the number of items that a player can sell. This is because many people would sell off too much of their collection to gain more currency, which can make it harder for other players to find popular items. [44]

Rated 4 out of 5 by Anonymous from Fun and Great For Fun! I've been playing Roblox for almost 11 years now. It's a great game for kids, teens, and adults. If you didn't get this game then you're missing out! It's so much fun to build things with your friends and play thousands of games.
