Good by Brenna on 2018/01/12 01:28 This game is pretty fun if you are bored at school or just don't have anything to do your self. It is super easy and addicting, but you should really use the coins because the first time I bought it was only like 20 coins. It was fine until I had to get another one. I thought it was 50 coins, but it ended up being 100 coins. It is a little frustrating but if you have nothing else to do, then this is a great game and you should get it.",

In 2014 Moon Active launched a Kickstarter campaign asking for \$8,000 to help progress development of Coin Master on PC platforms. It reached its target and the developers also received additional funding from a Jewish organization to support their work developing "Coin Master". A Minecraft version of Coin Master was also created by Mojang (Minecraft) in 2015, which is available to players free of charge via Minecraft Realms.",

On January 10th, 2016 United Pixelworkers released a free "Coin Master" themed virtual pinball table through Pinball Arcade game for mobile devices, IOS and Android platforms. This pinball table has over 100 levels of play including three unique modes that were never included in the original game due to time constraints The full version of the table was available for purchase to those who had previously purchased the original CoinMaster app.",

"Best game ever! I love that you can play with friends anywhere, even when not connected to the internet. This game is so worth playing because of the different levels and how easily it takes all my free time. It would be cool if there were different games you could play with friends online and offline. Also, I would be better off if you could actually get coins without spending your real money on them through in-app purchases or by downloading another game that requires real money."
