The game's graphics have been strongly criticized by many gaming journalists, with a few describing it as "looking like a mix between "Minecraft" and "Garry's Mod", developed in 2007". The lead designer of the title stated that low-fidelity graphics were better at promoting the games mechanics rather than high-fidelity graphics. On July 8th 2017, Facepunch Studios announced that "Rust" would be rebuilt with the use of a new development engine in order to create next-generation visuals and longer-term gameplay improvements.",

These kinds of mods are used for adding new blocks into the game and modifying existing ones. They will also add new features and functionalities into the game so that you can build bigger, better, and more awesome structures than before. No Drop Block: This kind of mod does not allow blocks to drop when they are destroyed by any means. This is great for if you find your character destroying a lot of your hard work.",
