Media usage and privacy concerns from various sources (see articles) have prompted user action against the company. ROBLOX is a site that allows its users to create their own 3D worlds by building them with the Roblox Studio software. Users can also import their own model and use it in their game. Users can also upload their game and give it ratings on ROBLOX's website. ROBLOX has also allowed users to create art of other games from other developers on YouTube through ROBLOX's brand of accounts created for this purpose. However, they have been criticized for not allowing users to upload custom art they have created into their games, which is done by making custom "Avatar" models for users which can then be used in-game.

These types of codes can be very useful for anyone that is using it because it can give them unlimited free robux. They can use this type of code to purchase all of the things that they want to have in different games. Since there are so many different types of things that they can have with these types of codes, they will not need to spend any real cash when they use a code like this one.

Players can review other players' stats in the "Review Player" feature. The player reviewed must have interacted with the player reviewing at least once since the review request was made. A punishment system is also available for players who do not act in accordance with Roblox's terms of service or community guidelines.

The company itself has not ever made such uses of VR technology but have given their developers access to the SDK in order to promote VR technology. The company is planning on releasing an SDK for Sony's Project Morpheus and Oculus Rift at some point in the future, although no dates have been officially announced. However, ROBLOX has been criticized due to their unusual (less than the minimum) end user license agreement. Roblox has released a new version of its app called Ava (ROBLOX's Mobile Application). See above section for more details.

ROBLOX's first virtual item was the "Builders Club," which was launched in 2006 and was free to all users. It grants users certain privileges that allow them to create and publish places easily on ROBLOX. The Builders Club is currently \$9.99 a month; however, it used to be \$6.25 a month until 2014, when it was increased to its current price. The Builder's club has since been discontinued for Xbox One and PS4 users as of December 2018 due to converting the Builder's Club into a Builders Pass which costs \$9.99 a month instead of \$6.25 a month.
