Premium game mechanics can also be implemented in free games. However, due to the fact that all premium features are only available in Builder's Club, in most cases they will if there is no way for the developer to observe this from a third-party mod or script perspective, then it can only be done via a Builders Club Premium [63].

Roblox and other similar games are compared in the table below. Game Similarities and differences ROBLOX Developed by David Baszucki. It introduced the ability to make your own places on the map and interact with other players in the same world. [127] There The first game to have a currency, where you earn coins through playing games. [128] It also introduced the ability for users to create their own houses by using a similar furniture system like in ROBLOX but with better design options. Habbo Hotel FriendBook was released, which is very similar to ROBLOX's Chat and Group Chat system where you can chat with other users from all around the world. [129] Habbo Hotel FriendChat was released, which is very similar to ROBLOX's Private Chat system where you can chat with friends from all around the world. There In the game, you have to fill a bar up with XP in order to level up. [130] Parkour Paradise Introduced the ability for players to create their own maps and create their own games. [131] Mario8 You are able to work on your character's status through doing quests and gaining XP by doing it. [132] Toontown Online Introduced the first "clothes" system for a character, where you can buy outfits in order to personalize your character and make them look different than others.

ROBLOX also allows people to manipulate the games in an unfair way; they can do this by changing the difficulty level of a game or removing potential players from playing a game. They also can sell cheat codes on their website. This is similar to the "scams" created by advertisers in that they are selling cheats for an unfairly high price (such as \$2.50 USD) so that only people who pay will be able to use the code to cheat or hack the game. However, this is an unfair way of making money.

On September 30th, 2018, ROBLOX released a "make your own toy" simulator called "Work at a Pizza Place". It proved very controversial as many users perceived it to be a lazy game and was rushed out without being finished. There were also many players complaining about how they could make money by selling pizza hats and shirts. However, this was only intended for people who would want to work at ROBLOX pizza.

Farmville: This is yet another example of a game that doesn't really offer any value at all but still manages to make a ton of money. It's a very bizarre concept which involves fun because you think you're going to become rich by buying fake farm products and selling them or you can become popular by posting pictures of your fake farm products and getting attention from people who want similar things. I mean, if this is what people want then it's really no different than Roblox except with Farmville you're dealing with real money.
