On April 6, 2015, the company launched a virtual reality project called "ROBLOX VR". It allows users to play in the same virtual world and see each other's avatars. On March 22, 2017 ROBLOX released a new version of its app called Ava (ROBLOX's Mobile Application). See above section for more details.

What I would love to see is more updates for games like minecraft, and many more updates. Also to add new games such as an RPG game (something similar to LOTRO) maybe something similar to wow where you come out of the game and control different characters. If we all work together we can get Roblox updated with these new games instead of waiting till now where there are a lot of glitches.

The next game that would allow users to do this was Parkour Paradise on August 16th of 2012. ROBLOX is the first game to have a player base where 70% of their players are between ages 10-15 and 30% are between ages 15-25.[126]

On March 3, 2008, ROBLOX released a new logo for the website after receiving much criticism from its community for changing it in late 2007. The new logo removed black completely from the original logo and changed the font to match that of RISC OS. The new logo was the same as it was before, but added a small "2" at the bottom of the logo.

Roblox has been criticized in the past for not having any real-life weapons or vehicles because everything is made of blocks and visual effects.[58] However, ROBLOX has announced that they will be adding weapons and vehicles to the game soon.[59] They later went back on this statement by saying they would only add 3 weapons/vehicles at this time.
