Rated 5 out of 5 by Anonymous from Best thing to do with friends Who doesn't like playing video games with friends or family? I think everybody would love it because they are free, fun and interactive with each other. It really is something you can try with all your friends right on your computer! :D My brother used to hate me playing Roblox but he eventually got used to it. I really recommend it! ^-^ It's really funny! Rated 5 out of 5 by Anonymous from Best game ever I think it is the best game because you can do whatever you want on here and have lots of friends.

ROBLOX is also one of the first websites to allow users to play multiplayer games with each other using video chat (most notably Skype). Over the course of the game, players can interact and communicate with each other through 'conversations'. ROBLOX also used Skype for video chat in many of their games.Some unofficial ports of ROBLOX that are based on Build include Mac OS X, Xbox 360, iOS and Raspberry Pi. The Raspberry Pi port allows users to use a Kinect sensor or USB webcam. Mac OS X includes ROBLOX support built into the client and includes limited support for input from keyboards and mice using DirectInput, as well as support for NVIDIA 3D Vision.

In order to create a game on ROBLOX, one must first obtain a Builders Club membership (a free membership that is required). Upon purchasing this membership, players may then use the in-game tools provided by ROBLOX or the "Studio" to create games that are interactive like FPS, MMORPGs, and various other game types. The engine is not limited to 2D games like most flash games are; it can be utilized in the creation of 3D games too.

ROBLOX runs a no-sell policy that allows for players to earn "robu$tokens" or Robux. These tokens can be used to both purchase games, games from other users, and in-game items. It also serves as a way to gain currency for in-game purchases such as buying more slots, which helps players advance faster in the game.

The developers of Roblox use the "Terms of Service" and "Privacy Policy" to monitor accounts for violations to these rules, also using the "Report Abuse" feature where other players can report any rule breaking or inappropriate content to moderators.
