Rated 5 out of 5 by Anonymous from Amazing but scary I absolutely love this game. There is so much to do like make clothes, build houses, and even things on ROBLOX Studio. After I started building my own games I decided to start playing them and they are so intense. But I love it there is lots of challenges.

On May 23, 2013, ROBLOX launched an in-game currency known as "TIX" (short for Tickets). It was worth one cent each since its release up until March 2014 when it became worth ten cents. They were planned to be used to buy virtual items for the game "Dance Off", but this never happened. In 2016, ROBLOX announced that TIX would no longer be used in the near future and that other ways of earning and spending money would be found. The currency was officially retired on October 14, 2016; while any TIX that was previously owned by players became converted into an equal amount of Tickets. ROBLOX launched an option to buy TIX with real money on January 13, 2017.

As of February 2018, ROBLOX has over 62 million users. [51] In 2017, ROBLOX added a new currency called "Tix". These Tix are used to buy Tickets at the store; the more you spend, the better prizes you get. These tickets can be spent on exclusive items such as Christmas hats. [52]

What kind of games does roblox provide? How do people play them? What are some other things they can do in the game? This article will answer these questions! I hope you enjoy reading it as much as I enjoyed writing it.

On May 12, 2016, ROBLOX announced that its first paid product (ROBLOX Credit) would be released on the 7th of June 2016. Later on July 4, 2016, ROBLOX Credit will be released to a limited number of people and then will eventually be released to everyone with their first payment plan in July 2017. On September 15 it was available for all users to purchase via Paypal or Credits. On May 17, 2017, ROBLOX announced that starting on May 26, users who had never purchased or used ROBLOX Credit will have to purchase it using real money.
