There are many free ways that can be used to get Robux. The first and foremost way is by getting the Robux from a hack site. Hack sites offer a lot of hacks and tools that might be able to provide you with some Robux in return for completing their tasks or surveys.

ROBLOX also provides a currency called Robux that players can use to access items within ROBLOX, such as buying backgrounds and avatars. [36] Players can get 10 ROBUX for free upon signing up, but if they choose to purchase blocks, they need more than 10 ROBUX upon signing up. They must either use their free ROBUX or buy some ROBUX. They can earn more by selling items they create in the ROBLOX catalog, but most often they earn ROBUX by playing the many games on ROBLOX.[37]

Please make a map creator way better than the one in game just because it's not as organized. There should be more detail to every single item. Make an option that if you move your mouse over an item it will tell you what that is and how to use it and everything else about the item.

In February 2014, Big Fish Games released ROBLOX for iPhone, iPad and iPod Touch devices. The game was pulled from the App Store in August 2014. In August 2016, ROBLOX launched a group messaging app, which uses an algorithm that allows users to receive messages from anyone they have played with or interacted with in any way, even if the users have not been added to each other's friends list.

On October 4th, 2018, Roblox introduced a new game mode called "Elevate", which had players build futuristic skyscrapers in the sky. Players were able to earn money by selling their custom skyscrapers for Robux. It was soon discovered that many of these buildings were copies from the game "Survival Island", prompting ROBLOX to ban users who had copied these buildings.[79]
