Spamming: Roblox has been criticized for its extreme amount of spam. Some examples include the "Free Robux" scam, where people are tricked into giving their username and password to a third party so that they can steal their Robux, and the "You Have Been Tricked" scam, which consists of the offender saying something along the lines of "DON'T TRUST. HE IS TROLLING ME."

The main reason for this update was to make ROBLOX a lot more social, as at the time the website only had game-based features. Also, players can now buy items (e.g., skins & backgrounds) with in-game currency and have them delivered to their homes.

The company continued to grow after adding more games, more ways to interact with other players, and updates to their backend engine. In 2008, the company launched an official website for users to store their games on the website's database and manage their avatar. In 2009, they also launched a virtual currency system called "Robux". These features allowed them to attract a large amount of players to the website at an early stage.

ROBLOX released the "Achievements" update on June 20, 2017. This update introduced many new features for games, such as achievements, friends-lists, and more. Players can earn rewards by accomplishing certain tasks within their games and taking a screenshot to get them.

Rated 3 out of 5 by Anonymous from Neat Interesting game where you can build your own games. Not really too into it though to be honest. I'd suggest if you want something like this get Minecraft. Rated 5 out of 5 by Anonymous from I love roblox! Roblox is the best game ever! It has a lot of stuff to do, and there is always someone to play with.
