Roblox has been criticized for allowing children to have weapons in their games and for hosting violent games with weapons such as guns and knives. In 2018, the company announced that they would be implementing an age verification system for their games. As a result, on September 19, 2018, Roblox was one of the first services to implement this new feature.

The majority of players on ROBLOX do not have any way to benefit from the game anymore because they're not willing to pay real money for fake money (robux), so they get bored and quit. They know there is no value in this game so why should they waste their time on it?

There are lots of bugs in this game and we need a way to report them so they can be fixed or can be added into a sticky post. There is not enough room to write here, too much! So what I am going to do is go over the bugs and glitches that are in roblox, then I will tell you how we can get them fixed or changed.
