In March 2018, ROBLOX introduced "VRChat", a game where players can create their own social VR experiences and attend live events. This game was released as a beta version on Steam Early Access in March 2018. A release on PlayStation 4 is planned for August 28, 2018.

In 2018, ROBLOX announced that it will be taking a chunk of its earnings and give it to the developers among them. Some developers are making over \$5,000 USD per month using ROBLOX. Roblox has had two cases with Microsoft. Roblox was originally banned from Xbox Live due to the game running advertisements which violated Microsoft's Terms of Service by being inappropriate for children. The ads contained anime-style nudity and extreme gore. This was later changed however when Roblox reached an agreement with Xbox Live regarding the matter between them.

On August 4th 2018, it was revealed that many well known ROBLOX users made fake accounts in order to copy their friends' progress. These fake accounts had the same username and picture as the original account owner but had no friends. Once these fake accounts gained a good amount of currency, they would join a game then buy the maximum amount of slots possible. The real account owner would notice that their account was missing and look at the fake profile's profile. While there were no friends, there were tons of transactions for items such as a \$100-\$150 purchase for 5000 robux. This could have been used to raise their reputation and potentially, make them more money.

ROBLOX has also been criticised for not putting up a good enough amount of effort to make ROBLOX itself safer for players. The site is not very well secured and has been known to have exploits since 2010, like one in the "Spectator Mode" which gives users complete control over other users' games with no checks or balances. It also allows users to upload executable files onto ROBLOX servers without any notification and allows them full access to other user's games and accounts.

The 100Robux app is really easy to use, and can be used on every device even without installing Roblox. The adverts are quick and easy to use, and the free robux is a great thing to get. All I would say about the 100Robux application is that it is simple and easy to use, even if you are not good at gaming. Also when using the 100Robux app, there is no risk of your account being banned or anything because it is just a game app.
