I also remember back when Minecraft was first released, how difficult it was to find anyone who was willing to play with you or help you if your work didn't work out; but I did find my lovely wonderful best friend through Roblox and we play together every single day. Even though there is no one on my friends list, I can still go into Roblox and join a game with other people. When I do that, my friend will always join me if she's in the same room. But even so, I never have any actual friends in-game because it becomes a very lonely experience as time progresses.

ROBLOX has also been criticised for being very difficult to use and has many bugs within the site interface itself, problems which seem to go unresolved by the development team despite repeated complaints over a number of years. Although the website's interface is not difficult to use, it has become more complex over the years with features such as video editing with a dedicated program and large amounts of unnecessary superfluous features. Some of the features include: UIs for uploading and viewing custom models, importing music, applications, and sounds; importing sounds from WAV files; creating galleries; creating art sheets; creating an unlimited amount of variations for models by changing their scale and pose; adding animations to models (e.g. walking); creating global themes which change every time you go into a game or lobby; creating global music tracks in . ROBLOX's interface has also become extremely frustrating, with a lot of features being inaccessible and hidden because of the aforementioned complexity.

There also used to be a filter for chat, which blocked any text that contained profanity. However, this feature was removed due to community feedback stating that it should be up to players if they want profanity in their chat.

Robux is the virtual currency for the game Roblox and it is used to buy a variety of items such as gear or apparel for an avatar. Roblox players can earn free robux through games, purchases or selling their creations on the site.

I like roblox but it is still not better than minecraft in my opinion because minecraft have so much stuff, people can do a lot of stuff. I think Roblox needs to get a lot of money so they can improve more stuff than they already got. I love roblox but I still think that it could be way better, so here is some of my ideas 1. It should have better graphics 2. It should have better game servers 3. There should be more new games, but there is a thing what I don't like about roblox is that the games are kind of the same every single time, and you end up playing them too many times 4. The games should either really get harder or really easier
