The game's worlds are different from most games on Roblox, because they are not based around themes. This makes the game easier to navigate when learning how the world works, and also allows for more creativity in the types of things that can be made. The world is made up of a variety of things; buildings, vehicles, furniture and objects such as weapons and armor. Each item has its own purpose and will function in the way it was intended for.

Roblox has been criticized by parents and others for its age-inappropriate nature, and for encouraging bullying. Some players have reported being bullied while in the game, due to language or other factors. Many of these players have been reported to take their complaints to Roblox's customer service team, only to be ignored or told that it was the victim's fault. It is also reported that the staff are biased towards certain users due to friendship rather than any sort of immorality on their parts.

Rated 4 out of 5 by Anonymous from fun and addicting! I like roblox because it lets you use your imagination for building things and it lets you play games made by other kids. Rated 3 out of 5 by Anonymous from Great game! Good game for all ages, but can take up a lot of memory space!
