"Best game ever! I love that you can play with friends anywhere, even when not connected to the internet. This game is so worth playing because of the different levels and how easily it takes all my free time. It would be cool if there were different games you could play with friends online and offline. Also, I would be better off if you could actually get coins without spending your real money on them through in-app purchases or by downloading another game that requires real money." "This is one of my favorite games because of the different levels and how easily it takes all my free time. I think it would be more fun if there were different games you could play with friends online and offline. Also, I would be better off if you could actually get coins without spending your real money on them through in-app purchases or by downloading another game that requires real money.";

The game was launched on the Google play store in August 2012. In December 2015 Coin Master was removed from the play store for unknown reasons but it continues to remain available on its own website. Moon Active announced in October 2016 that "Coin Master" was shutting down. However, in 2018, Moon Active released version 1.1 for iOS devices which contained support for 3D touch devices and some other bug fixes. They also announced another new game called Coin Master "Dig Deep" which is similar to the original Coin Master but has added features such as a virtual currency system and features much more content than the original game.",

"This is one of the most enjoyable games I've ever played. You don't have to be online to play, which is a big plus. You can get free coins and spins by viewing videos or playing other games. It lets you choose which level you want to play on, so it isn't too easy and boring, or too hard and frustrating. The best part is that you can play with your friends at any time! There's not only boss fights, but there are also puzzles that require you to work with other players to figure out how to beat them. A good thing (or bad thing for those who don't like boss battles) is that if you go into a fight with someone else, they will take over the game. This means you might have to just sit there and watch while they fight. If you don't want your friend to leave, you'll have to buy some extra lives by tapping on the screen." "Great game! I love that you can play with friends anywhere, even when not connected to the internet. I would only add that it is hard sometimes when there aren't enough coins, but other than that, this game is so worth playing." "This is one of my favorite games because of the different levels and how easily it takes all my free time. I think it would be more fun if there were different games you could play with friends online and offline. It would also be cool to have a way to actually get coins and lives without having to pay for them." "I love this game because anyone can play it, anytime, anywhere. But I just don't quite understand how they are trying to make money. You have these extra lives you win from watching videos or playing other games, but they are not enough unless you spend your actual lives on them through in-app purchases or by downloading another game that requires real money. I would give this game five stars except for the fact that I feel like there's a lot of potential wasted on how they are trying to make money. Hopefully the developers will change their ways.";
