Coin Master was initially released on the Game Boy Advance in 2004. It was later ported onto the Nintendo DSi in 2010 and released on that platform under the title "Pokémon Mystery Dungeon: Magnagate and the Infinite Labyrinth". The game is included as part of a bundle with other "Mystery Dungeon" games. On July 6, 2018, a version of Coin Master was released for Android devices which was developed by BANDAI NAMCO Entertainment Inc. and published by Namco Bandai Games America Inc. on the Google Play store.",

The game's website also has a hit counter that updates every five minutes. The game also tracks player activity by awarding quest coins based on how many games have been played and how quickly they are completed in the app. The rarer a card is used in a match the more coins earned.",

Coin Master is a free, single-player, casual game created by Israeli studio Moon Active. The gameplay is similar to Chinese multiplayer online battle arena games with the added element of interactivity where players can use their phone's camera to scan a coin, which will then reveal parts of a story about their adventure while also making it collectible.",

Some users have also criticized the game for not being as user friendly as other games. The developer justifies this by saying that they don't believe in making their game overly simplistic, but do plan to release more tutorials. It was also stated that the game does not include any missions or goals outside of getting coins and killing enemies. However, the developer states that he is working on adding goals into the future.",

"Coin Master" was chosen as a finalist for Best Mobile Game in the 2015 Independent Games Festival Awards under categories of Strategy/Tactics, Casual, and Family. At E3 2015 Moon Active were nominated for Best Mobile Game by the Academy of Interactive Arts & Sciences (AIAS) for their work on "Coin Master".",
