On January 10, 2018 GamesBeat published an article that mentioned a new release titled "Coin Master: Poke Map" was being developed by United Pixelworkers for the iPhone. The game is available for iOS devices in beta form as of February 2018 and is free to download from the App Store. This title is an alternate version of "Coin Master" where players can view the world around them (using real location coordinates) and find loot based on their current location within the game. It also includes a newspaper titled "Coins & Curses Adventure" which is about "Coins & Curses Adventures". An article on the website says that the game was created to satisfy the desire of players for a Pokemon Go style experience with "Coin Master: Dig Deep".

The "Coin Master: Puss in Boots "(Kasegi 2: Bukimi no Tane)" hack enables players to get unlimited coins and gems. By removing the gems from your inventory, you will still have the game unlocked as well as all the features that come with it! You can install the mod in two ways: permanent and temporary. You can use the permanent version to avoid any in-app purchases or data loss. The tool also contains a blacklist which you can use to block certain games from being hacked. This means that if you encounter a game that has been blacklisted by your device, then it will not be hacked by our tool. The temporary version is meant for people who do not want to use the permanent version, and it is a safer way to get your game hack. Download [Android - Permanent]",

In 2011 Moon Active released Coin Master for iOS and Android as a free download. This version of the game is completely free and removes all in-game advertisements. However, it now requires a \$0.99 "micro transaction" in order to advance to the next level.",

Coin Master is a game app for mobile devices. The game has spun off into a collectible card trading card game which is created by the makers of the original Coin Master Game. The app is free to download and it's available on Android, iOS and Windows.",

Boring by tommissausage on 2016/10/31 12:19 With over six hundred levels of play, this game should get a lot more attention. Don't get me wrong, the graphics are good and the gameplay is engaging, but it's just so bland and uninspiring. It's like a run of the mill jigsaw puzzle with puzzles you've seen before. It also never lets up with adds and very little feedback when you successfully complete a game level. There should have been some form of ending criteria as well as feedback on your performance in game mode. Simply put: it's just boring.",
