In June 2021, TikTok launched an AI-enabled feature to understand the actions of individual users and determine what to share in real time, reducing the amount of social spam on their platform. This is similar to the implementation on Chatroulette and Yik Yak leading up to 2021. The

AI system is a collaborative approach between the company and Technicolor AI Lab. The system can use facial recognition technology and timestamps to determine what a user has done recently so that based on that it can then share more relevant videos with other users within the page who also have not done anything recent enough for the AI to detect them. According to the company, this new AI system is capable of reducing the number of social spam videos being shared by 70%.",
