On May 14th, 2014 ROBLOX released Builder's Club which costs \$7.99 a month and required players to have it to use in place of the credits system. They later made improvements to the Builder's Club and decided to offer it for free in 2016. On April 25th, 2016, the ROBLOX website was updated to version 2.0. On September 28th 2016, the ROBLOX website was updated to version 3.0 and it had a new design with new features.

Overall, ROBLOX is fun to use and has many activities for players such as playing games and building creations. The unique graphics that come with each game can be beautiful or affective depending on the type of game it is. For parents that want their children to have fun and have gaming time without the risks of other online games, ROBLOX is a great place to use. This website has safety features for children and parents as well as many other positive features. ROBLOX was mentioned in a Video game advertising case in the Court of Appeals for the Fifth Circuit. The court upheld the game's placement of content, but struck down a provision stating that ROBLOX is an interactive computer service as a matter of law.

There are a number of settings in your account that can be changed, including your e-mail address, password, birthday, username, and the overall look of your account. You can also add a picture or video to your profile. However, you cannot change the color of your name (unless you join up for a Builders Club subscription), nor the overall color scheme. ROBLOX offers ten different color schemes that players can choose from; these include Gold, Green, Blue, Black & Red and many more. Due to the nature of ROBLOX's game engine, players need to be able to manipulate various graphical elements by using the in-game tools provided by ROBLOX. These tools include resizing, rotating, and moving various objects and creating texture maps. It can be used in the creation of 3D games, but the game must be made using a 2D game maker such as Game Maker or Flash itself.

People who need a lot of money for their personal game development or projects would not like free roaming because to get enough Robux in free roam would take so long. They avoid free roaming because they want to get things done.

In October 2014, ArenaNet announced that Guild Wars 2 will be fully free-to-play with no restrictions on level or content,[60][61] due to being released as a core game in China, where games must provide full unrestricted access or it cannot be published by the People's Republic of China's Ministry of Culture. Within a few months, the game had rebounded from the effects of these restrictions, as the player base had grown to exceed that of the Asia server.
