I really liked playing my own games because it was fun to design a new world for my friends and myself. In my game I could make up anything I wanted. I could add trains, people, animals and pretty much anything else you can think of. I also liked making my own avatar because it gives me a lot of choices in making the way they look. Another thing I was really interested in was Roblox role play which is basically acting like someone else for a little while. You can choose one of your friends or even make up a new person and act like them until you want to stop again. This is good for kids because they get to learn how to act like they're someone else. It's also good for when they have to act in school and it can teach them a lot of things.

The way Roblox works is by creating an account. In this account, you will be able to make your own avatar that you can customize to look however you want it to. With this avatar, you can go on to explore the different places and games in Roblox. You can interact with other players that you meet in the game and even chat with them. There are many different categories of games that you can choose from to play and I like this because you have a lot of options to choose from. One thing that I think is great about Roblox is that you do not need to pay any money to play it all the time. This is because you can buy Robux in order to use it for building purposes or for upgrading your avatar. This is great because rather than just paying and continuing to play, if people don't want to pay they don't have to.

Builders Club Premium can be used in games greatly increasing the amount of Robux and/or XP a player earns by a given amount. If used, then Builder's Club is required to play those games. There are two types of premium features: content premium and currency premium. Content Premiums typically involves a single item or feature that changes the game mechanic, such as more life points and/or more room to build, or increased maximum health for monsters. Currency Premiums usually involve the addition of new items to the game that are only available through favorable conditions (for example, allowing players to purchase a specific item for Robux). Some Currency Premiums can also require membership in Builders Club.

On July 29, 2016 (9:00 AM), ROBLOX released a new website design. This redesign was created in order to make the main site easier to navigate and find what they wanted at a faster pace. There are many new features that make the site easier to manage and update. There are many new pages and features added. The new page layout is designed with ease of use in mind.

On March 13th, 2018 the ROBLOX website was temporarily shut down due to multiple exploits on the site. With over 200 million players this has become one of the biggest DDOS attacks in history. The site came back online about 30 minutes later.
