Roblox has been criticized by parents for issues such as allowing players to have relationships with other users through the game, and allowing players to (unsuspecting) "friend" hackers. Other criticisms include consuming large amounts of bandwidth, and not being child-friendly. The site has been removed from school computers in order to protect children.

ROBLOX is very similar to gambling. People who don't know better pay real money for fake game money that has no value. Children can be swindled out of all of their parents' hard earned money without realizing it's gone until mom/dad finds another credit card bill at the end of the month or worse.

Although the app is designed for ROBLOX users to chat and connect further outside of the website, it also has additional features similar to those available on ROBLOX: users can play games together through group chat, use images and video to communicate with their friends, and create customized avatars for themselves.

The chart below contains the top 5 accounts with the most amount of plays on ROBLOX in that year (as of December 31st). This chart is directly taken from ROBLOX's blog post for each respective year. ROBLOX games have made the news many times in the past. Below is a short list of some of them. Prior to 2011-2012, ROBLOX game developers were responsible for any known instances of hacking that happened in ROBLOX. There were also older instances where hackers had not yet discovered the community, but eventually did so, and started making exploits on their games that were very popular (such as "Hacker Escape"). Hackers also used an exploit to gain access to admin privileges on a game called The War Factory, which had over 500,000 concurrent players at once. When this was discovered, the hacker was immediately taken down by ROBLOX's staff.

There are few sites online that provide Free Robux for ROBLOX so we really hope that this site brings more people to this game because it is much better than any other game out there. These promo codes for ROBLOX will provide you with unlimited hours of enjoyment and entertainment which is why we strongly recommend that you make use of them right from the start so that you can enjoy the maximum amount of fun and entertainment. You can also see other players in the game and talk to them if you want to. There are a lot of different things that you can do in this virtual world and it really is a fun way to get away from reality because everything is more enjoyable when you use it here compared to the real world. This is a very important thing to know about so that you can stop wasting money on games that will not provide you with enough fun or entertainment.
