In January 2016 Moon Active announced that they had signed an agreement with Samsung to develop their tablet version for release in Q4 2016. The game is titled "Coin Master 2" and will be released for Android devices. It will include cards, strategy and RPG elements and will use the Samsung GearVR virtual reality headset as well. The game was removed from the Google Play Store on July 29, 2016 however.",

You need a lot of coins by idk man on 2018/02/23 16:13 It's a fun game but you have to be extremely patient and keep collecting coins over and over again just so you can get any upgrades or anything better. It's like you're never going to get the update you want and it's very frustrating. And the whole thing where you have to spin so that you earn more coins and then you get a random chance of getting coins is just aggravating. The only reason I am writing this review now is because I played this game for almost a year while waiting for an update or something good to happen but it never did and I was sick of it. The thing that ticks me off the most is that I live far away from my friends and I wanted to be able to talk with them but you need a certain amount of coins just to be able to talk with people and I thought it was very unfortunate because when your trying to play games and win coins, it's hard and then you have to waste more of your time just so you can talk. Yes, you can use ur coins for getting power ups but in order for u not to be broke, u needa save up for the power ups so they have something interesting. If you're like me and like to talk to your friends while playing or get things for your farm, do not play this game. It is one big waste of time and it takes so long to progress. And the chat ain't worth it either lol",

The game includes a variety of different "power ups". The user reviews for each power up show the overall audience's rating of the power up at that point. Some power ups include the ability to turn on an area light, remove clouds from the screen, double all coin production, and create special blockades in which coins aimed directly at one end of a light stand will be destroyed before they reach it. The more powerful power ups also include "turbo bombs" which can be fired from the player's cannon.",

The sequel featured updated versions of popular games from the 70's-like "Space Invaders". Coin Master: Space Invaders was released in Japan initially as part of Moon Active's "Coin Masters" series. However, this version of the game was never released outside Japan. This version contains microtransactions which can be removed by paying \$4.99 for an ad-free version. The user review for Coin Master: Space Invaders is composed of 4.5 out of 5 stars (out of 1 vote) from 1 user, with a user rating of 3 out of 5 stars (out of 1 vote).",

On November 1, 2016 two "Coin Master" players (Andrew Peebles and Javiell Evans) both won packs from a charity raffle held via United Pixelworkers' official Facebook page. The raffle was for the Xbox One Collector's Edition of "The Elder Scrolls V: Skyrim" that included the "Coin Master" card HORSEMAN in its set.",
