The sequel featured updated versions of popular games from the 70's-like "Space Invaders". Coin Master: Space Invaders was released in Japan initially as part of Moon Active's "Coin Masters" series. However, this version of the game was never released outside Japan. This version contains microtransactions which can be removed by paying \$4.99 for an ad-free version. The art-style is that of a retro style 8-bit game and the stages in the PC version are represented by a 2D top-down perspective where the player controls their character using a keyboard, mouse or touch pad. The mobile versions are more casual and use intuitive finger gestures instead of keys to move through gameplay. The mobile versions have 3D artwork rather than 2D sprites while also allowing the player to interact with their environment and other characters as they play. Each coin character has its own unique abilities while all coins have different stats in speed, attack strength, maximum health points and jump ability. The player can also collect coins and turn them into gems and the player can use these to buy new items.",

In 2018 Moon Active released Coin Master for Apple iOS and Google Android as a paid app (\$3.99) that can be downloaded from Apple App Store and Google Play Store respectively. This version of the game is ad-free and has all future updates to Coin Master included in the price of the app. The developer stated that he hopes to release new updates monthly through 2019.",

Good game but... by 1-2-3! on 2016/12/22 00:18 I really like this game. It allows you to come back to it later with a new board of squares that have a set pattern. In this case, all the white squares are filled in and you have to find all the words that fit in the pattern. It's really fun, although sometimes confusing as you try and decipher what is or is not a word. The only complaint I would have is there are SO many ads. They are annoying and it takes away from the flow of the game. They are also very small.",

Coin Master is a game app for mobile devices. The game has spun off into a collectible card trading card game which is created by the makers of the original Coin Master Game. The app is free to download and it's available on Android, iOS and Windows.",
