Roblox has been criticized for an update they released in February 2018 that added "tattoos" to their avatars. The update was scheduled to be released on November 1, 2017, but it was delayed and finally released on February 5, 2018. This caused some users to report that they had tattoos on their avatar even though they never wanted them.

In ROBLOX, you can unlock the most exclusive gear by getting it directly in-game with a single purchase of ROBUX! But no one has ever figured out how to get it from outside the game! This is because all of the ROBUX you buy in game are for virtual currencies and have absolutely no real-world value. Whether you're a player or an admin, this is a secret worth keeping.

Roblox could be better in one way by adding new games. I saw that tons of people were posting on the forum that they want a new game to play not a great way to spend your time, like if the game was updated and you can play it again, or just say your opinion about what you would like to see in the next update because there are many gamemakers that ask for ideas on a game app idea. or have a contest for ideas.

This is a great way to get free robux for roblox and it will work perfectly without any problems so there is no need to worry at all. However, if you are not interested in getting free robux for roblox and you are just looking for some different features then this application should be downloaded. It is completely safe to use as well so there shouldn't be any problems with it after all.

On June 21st 2017, ROBLOX announced that all spambots will be blocked. [70] Criticism: Roblox is frequently criticized for having a lot of children on the site. This criticism has not been limited to adults, but has also been aimed at the company as well. There have been several stories of people being scammed by users who receive no response when attempting to use a built-in feature that allows the user to block other users from messaging them.[71]
