When it comes to purchasing a Minecraft server, you should consider realistically whether or not you are going to be playing with friends or creating a private server for yourself. Most gamers are able to find a public server that is dedicated and offers high-level content that they will enjoy. However, there is plenty of room in the market for private servers for those who do not mind maintaining and taking care of their own servers. It is highly recommended that you go with one of the larger hosting companies in order to get reliable hosting, support and rental options when it comes to your own Minecraft Server. Luckily, the web is a great resource for finding the perfect provider and server for your needs.",

The best part that I like about Minecraft Bedrock Edition is that you can play right away on your server without spending money on a gaming box

or 3rd party antivirus software. You don't need to install any software or extra hardware in order to make it work. The process of starting your server is very simple and anyone can do it, so you'll be playing in no time! You can also make purchases with in-game currency for extra characters, skins and other stuff from the Minecraft Marketplace, so if you decide to buy something from there you won't have any problems or issues at all."

Weapons can be crafted with either wood or stone and basic combat techniques involve aiming at the head to inflict maximum damage, taking use of terrain and the ability of having a ranged weapon for players comfortable with using more than one weapon."
