Composite key, or composite primary key, refers to cases where more than one column is used to specify the primary key of a table. In such cases, all foreign keys will also need to include all the columns in the composite key.

Roblox is a game where you can play games with friends that other players have created. Overall, I think Roblox is a great game, but like every other game, it probably would need some changes or parts that should be looked at more. This is for Roblox in general, because I know you guys don't have much control over the games individually.
