For me, I think that one of the most important skills that I have developed is patience. In Roblox I am required to be patient with my friends, because most likely they will not be online when I want to play with them. Posers are also another big part of the game where people pretend that they are someone else but if you tell them they can't do it then they will stop being so fake and start being their true selves again.

On May 22, 2018, ROBLOX launched Project Bloks, an app for iOS and Android devices that is aimed towards children 2-12 years old. The app allows users to build various blocks available in the game. Some blocks are also available as virtual items for purchase. The revenue earned from these items is then distributed among the app developers on ROBLOX. The game was first released in Canada, and now has been released in the United States.

The Roblox UI has a webcam in the bottom right corner, and many players have found that other players have used this to take pictures of them or record them without permission. This was also reported on an academic blog site.

On May 24th 2019, ROBLOX announced another update for their Studio 2.1 version. This update, known as "Studio 2.1.1", was released to the public on May 31st 2019.[98] Like many other platforms, ROBLOX also has an adult chat system. This is usually used by roleplayers and other users who wish to talk about mature topics freely. However, players have abused this feature by advertising Roblox pornography websites or trolling innocent users.[99] Some users have also used the system to claim that their username is "Not suitable for children" or use inappropriate usernames in order to get attention from others.[100] It is unknown whether ROBLOX will ever remove this feature from their platform.

I don't really have an answer for you, but I'm sure this is a problem that other people have as well. I think the game needs to be made less serious because people will not want to spend money on fake money (robux) if they know there's no real value behind those items they purchased with their fake money. The best way to accomplish this would be to make hats, shirts, etcetera for gamers who spend more than a certain amount of money.
