I have always wondered why people enjoyed playing Roblox so much. I think it's because it's very similar to Minecraft in many ways; for one thing, the graphics are very childish which got me interested at first. Because the game is customizable, you can choose to look at the world through a little boy's eyes or that of an adult. I chose to be an adult for a time, but it was always hard to play because it would become so boring. But at some point when I was playing Roblox, my interest in it started to fade away. The reason for this is because of the new updates they made to Roblox. Now there are so many advertisements everywhere and so many games being added every day. You never play with friends because everyone has their own account and their own games they are playing. Even if your friends are on, you have no idea who they are because they could just be anyone.

On September 13, 2016, ROBLOX launched its tenth birthday party along with an event called BLOXtober. The purpose of this annual event is to celebrate ROBLOX's birthday and give players badges for completing The Admin's tasks every day until October 15th. The badge is called BLOXtagger and can be worn on your profile for the year. The tasks were also modified to let you earn the badges by simply logging in every day.

If you do not already have a badge, then you will gain one once you have logged in every day for two days consecutively. At the end of BLOXtober, ROBLOX held a contest called RoblXtheRave, where people were given a chance to win a large sum of money in cash by answering trivia questions that were asked throughout October 11th-13th.

From June 12th 2018 to July 30th 2019, the Roblox network was under a major DDoS attack from a group called "Apophis Squad". This group was demanding that Roblox pay 10 million US dollars into their Bitcoin account or they would continue to perform DDoS attacks on the site. They also threatened to kidnap staff members and steal their hair if ROBLOX declined their offer. According to Roblox, this group caused 3.7 million dollars worth of damage.[103] The group also began sabotaging ROBLOX's YouTube channel by uploading offensive videos and ads towards users who clicked on it, which caused the platform to ban the channel in July 2019.

On July 26, 2018 (6:10 PM), ROBLOX released a new game called "Roblox Experiment" for mobile. A trailer for the game was released on July 25 and made it's official release on July 26. The game is intended to be used for experimentation and research on mobile devices, as well as a temporary training tool for developers that assist in making future Roblox games/apps/experiments.
