The Roblox website has undergone several changes in terms of design. All the current releases before October 10, 2010 had a different logo from the one that is currently used. The beta site is also a different color than the current homepage design. If you visit the old Roblox website [1] it will redirect you to the new Roblox website, although on rare occasions it will instead take you to an error page.

If you have been looking for a way to hack roblox without having to spend money then the best idea is to use this hack tool. It is free, and there are no catches! You can be sure that you will not get banned in the game for using these cheats.

ROBLOX released its first Android app on October 13, 2013. The app is currently available in English and has over 2 million downloads on Google Play. It was launched for iOS on December 17, 2014. The application allows players to create games and play previously published ones, but does not allow for publishing of user made items or models.
