According to a report by "The Guardian", Roblox has been criticized for being a "digital playground" that involves more than 50% of their users under the age of 18. The report states that there are over 200 million players on Roblox who have access to weapons and themes that include sexual references and violence. They also said that Roblox emphasizes the idea of user privacy which can be seen in their games by having players invite other users via email or text messages.

Players try to keep up with others by making and buying new items. It's not always easy to come up with the money to buy items, but thankfully, you can earn robux for free and buy new clothing, accessories, and gear for your avatar.
