On November 2nd, 2018, ROBLOX announced that the company is looking into implementing state-of-the-art anti-cheat technology. This was made to reduce the chances of "boters" putting random objects in games that don't belong there or making designs that look like they can be through a video editor. The company also stated that if there are any issues with their anti-cheat software, they will let everyone know as soon as possible.[24]

ROBLOX classifies its users as members in its Terms of Use. As a member, ROBLOX reserves the right to collect and share personal information, including member account data, e-mail addresses for communication with users such as surveys, notices about the service or changes to the Terms of Use or Privacy Policy, etc., IP addresses and cookies.[2] According to their Privacy Policy, ROBLOX may disclose personal information such as member account data to third parties in order to comply with legal obligations or prevent any illegal activity.

The Roblox UI has a webcam in the bottom right corner, and many players have found that other players have used this to take pictures of them or record them without permission. This was also reported on an academic blog site.

As I have mentioned before, there are a lot of other generators available on the market. However, I only recommend that you use this and the Rosetta Brothers Robux Generator because they work perfectly and they don't show any problems after some time has passed by.

19. The only real problem with roblox is that there is no way to make a person get out of the main menu like one can on minecraft. 20. I love Roblox! I am getting a new headset for my new laptop and I'm so excited! This is the only game that my parents are okay with me playing. They know how to work it and are able to keep an eye on my account. It's safe. 21. Funny
