ROBLOX released its first Android app on October 13, 2013. The app is currently available in English and has over 2 million downloads on Google Play. It was launched for iOS on December 17, 2014. The application allows players to create games and play previously published ones, but does not allow for publishing of user made items or models. There are a number of settings in your account that can be changed, including your e-mail address, password, birthday, username, and the overall look of your account. You can also add a picture or video to your profile. However, you cannot change the color of your name (unless you join up for a Builders Club subscription), nor the overall color scheme. ROBLOX offers ten different color schemes that players can choose from; these include Gold, Green, Blue, Black & Red and many more. Due to the nature of ROBLOX's game engine, players need to be able to manipulate various graphical elements by using the in-game tools provided by ROBLOX. These tools include resizing, rotating, and moving various objects and creating texture maps. It can be used in the creation of 3D games, but the game must be made using a 2D game maker such as Game Maker or Flash itself.

Chris Hutchins, the Vice President of Developer Relations at Roblox, has said that Roblox is hiring. The current number of users that have worked for Roblox is 17,000 and they hire about 400 employees each year.
